SUMMARY

Motivated **Computer Science Engineering** undergraduate with knowledge of **Full-Stack Web Development, Android App Development, Computer Networking, and Ethical Hacking**. Proficient in **Python, JavaScript, HTML, CSS, Node.js, MongoDB, Firebase and MySQL**, with hands-on experience building responsive web applications and software projects. Strong analytical and problem-solving skills with a passion for developing secure, efficient, and user-focused applications

SKILLS

Programming Languages: Python, Java, JavaScript, C

Frontend Technologies: HTML5, CSS3, Bootstrap, React.js

Backend Technologies: Node.js, Express.js

Databases: MongoDB, MySQL, Firebase (Firestore & Firebase Authentication)

Android Development: Android Studio, Java, XML, Firebase

Computer Networking: TCP/IP, OSI Model, Routing & Switching, DNS, DHCP, HTTP/HTTPS, FTP

Developer Tools: Git, GitHub, VS Code, Android Studio, Postman

Core Computer Science: Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks.

PROJECTS

MovieVerse – Online Movie Ticket Booking System

Python, Django, Bootstrap, JavaScript, SQLite, Pythonanywhere, HTML, CSS3

- Developed a full-stack movie ticket booking web application inspired by BookMyShow using Django.
- Implemented secure user authentication with registration, login, logout, and profile management.
- Built a complete movie booking workflow including movie search, show selection, seat booking, and booking history.
- Integrated QR code-based ticket generation for booked movies.
- Developed wishlist functionality and user review/rating system.
- Designed a responsive UI optimized for desktop and mobile using Bootstrap 5.
- Deployed the application on PythonAnywhere and managed version control using Git and GitHub.

GitHub: <https://github.com/Codeakriti2005/MovieVerse>

Live Demo: akriti17.pythonanywhere.com

Amazon Sales Dashboard

Power BI, Python, SQL, Pandas, Matplotlib

- Developed an interactive Amazon Sales Dashboard using Power BI to analyze sales, profit, quantity, regions, and customer segments.
- Performed data cleaning and preprocessing using Python (Pandas) and created visualizations with Matplotlib.
- Wrote SQL queries to analyze sales trends, category-wise performance, region-wise profit, and top-selling states.
- Designed KPI cards, bar charts, donut charts, and interactive slicers to provide dynamic business insights.

GitHub: <https://github.com/Codeakriti2005/Amazon-Sales-Dashboard>

Snake, Water, Gun Game

Python, Tkinter, Github

- Developed a command-line implementation of the classic Snake, Water, Gun game using Python.
- Implemented game logic with conditional statements, loops, and random number generation for computer moves.
- Designed an interactive user interface through the terminal with input validation and score tracking.
- Strengthened programming concepts such as control flow, functions, and problem-solving through modular code development.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science and Engineering

Krishna Institute of Technology (AKTU), Kanpur

2023 – 2027 | CGPA: 7.3/10 upto 6 Semester

Class XII (ISC Board)

Acme Public School

2021 – 2022 | Percentage: 65%

Class X (ICSE Board)

Acme Public School

2019 – 2020 | Percentage: 70%

CERTIFICATIONS

- Advance Python – RCPL(Ritusha Consultants Pvt. Ltd)
- Advance Java– RCPL(Ritusha Consultants Pvt. Ltd)
- OOPs with C++ – RCPL(Ritusha Consultants Pvt. Ltd)
- Full Stack with Java-RCPL(Ritusha Consultats Pvt. Ltd)

INTEREST

- Dancing
- Reading
- Music
- Travelling
